Registration and Plugins

USING MULTICLICKER STEP BY STEP! I personally make about 15 to 20 dollars a day using this method. It is effortless so, why not! Give it a try! It might not seem much, but just by using this I have a monthly income of 600 dollars. Check Plugins section for proof.

2. Get to MultiClicker2 website. To actually make it autoclick on the Pay to Click Sites, you will need to download its plugins (sites plugins) that actually have the information about the PTC sites. More information about plugins on another page.

Sometimes, the PTC Sites Owners change their Site Script (to counter Autoclicker softwares) which means, your plugin for the Site needs to be modified else it won't work). In that case, you will see the following error: Modified Site Script. Check my Plugins page for downloads and updates!
