

# This is probably your last chance get rich...

Here's what this is all about...

Flat out, no bullshit, let me just say it, despite EVERYTHING you've been told about how "hard" it is to make money online...

If you know how to log in to Facebook or watch a video on Youtube, then you already know everything you need to know to make money online... to have thousands (or even tens of thousands) of people all around the world creating content and driving traffic for you and creating a "money-machine" business 100% dedicated to making you rich... and to finally have the money, the lifestyle, the freedom and the TIME you've always dreamed of, simply by pushing a few buttons on your computer...

With:

- No PPC
- No Article Marketing
- No Facebook Ads
- No Creating Products
- No Doing Launches
- No SEO
- No Blogging
- No Domaining
- No CPA

No buying crappy \$2,000 products from big "gurus" who have never made an honest dollar in their lives.

Plain and simple, if you can follow instructions and do what I say in this short report then you can finally get the money you've been dreaming of and slaving for for so long...

But only if you listen to everything I have to say and take action now... while I can still share this with you.

My name is Adam Carter...

And after years of struggling, slaving and almost dying, I'm finally an online millionaire who can buy and do anything I want....

I have all the money I need for myself and for my family.

I have all the toys I've ever wanted.

My beautiful children are taken care of for the rest of their lives and will never want for anything. Right now I'm living the dream...

But despite all that...

I have one huge regret that gnaws at me every night as I toss and turn in my bed.

## That I Wasted 33 Years of My life In A Job I Hated...

My environment tried to convince me that I should just "Give up" on my dreams as so many others do.

That's not what I did...

## A Few Years Ago, I Was Angry And Bitter And Desperate Like You... Just Another Victim Of The "Guru Scam"...

When I first discovered this "internet marketing" thing a few years ago, I didn't have any big ideas about "getting rich."

I just wanted to take care of myself and my family. I just wanted to make sure my beautiful kids would always be taken care of and would have the money to live the life I wanted for them.

---

I wanted better for them than I was ever able to get for me.

See, for 33 long years I crawled into my beat up car and fought my way through traffic to my bullshit job every day.

I let punk kids decades younger than me boss me around... and kept a smile on my face when I did it.

I put up with all the anger inside me and all the BS they wanted me to do and did what my boss told me, just counting down the days until I could finally retire and live off my pension and finally start enjoying myself.

## And Then In 2008 The Banks Failed, My Pension Evaporated And I Watched Everything I Ever Worked For Go Down The Drain

My wife, Emily broke down crying when it happened.

We got the statement from the company pension fund.

We knew things might be bad.

But when we opened the letter and saw that our retirement funds had been decimated...that we'd been wiped out, I felt this nausea just well up in my throat. I felt like I was going to vomit.

And my beautiful Emily... my beautiful wife... she just lost it.

She sobbed like I'd never heard her before.

She watched all our dreams of relaxing in our golden years and spoiling the grandkids just fade away and it broke something in her.

I put my arm around her to try to comfort her, but she shrugged me off.

And for the first time in our marriage, I really felt like a failure. I felt like I'd let her down. Like I wasn't a man.

---

[Click here to learn how you could make \\$300 per day by simply copying and pasting a tiny string of code...](#)

I knew I had to do something to get that money back. To take care of the woman I'd fallen in love with so many years ago.

## And It Wasn't Long After That, Like So Many Other People I Was Abused And Used As I Fell Into The "Guru Trap."

I won't tell you the name of the "Guru" who took advantage of me.

But he was a young punk who probably never worked a real day in his life, didn't know what it was like to have real responsibilities.

He hooked me like an idiot fish by showing off his fancy cars and houses and telling me how EASY it was to create info products and become a "millionaire" over night...

I studied everything he gave me like it was the bible . .

I had to hide it all from Emily. Not that she would have noticed. She was acting like a ghost at that point. Spending all her time clipping coupons and wondering how we'd get by if I lost my job that was slowly killing me every day.

It took me over a year to make my first sale...

\$17.48 on Clickbank for an ebook I'd written myself in an obscure little niche you've never head of.

It should have felt good making that money (even though it wasn't much.)

And it would have I bet...

**Except it had cost me over \$9,478.00 in "Trainings" and "Mentorship" and "Seminars" to make that first measly sale!**

That night I sat there at my crappy 6 year old laptop that barely worked (we couldn't afford a nice computer) and I added it all up.

---

[Click here to learn how you could make \\$300 per day by simply copying and pasting a tiny string of code...](#)

All the ebooks and the videos and the membership sites and the "once in a lifetime trainings" and the \$2,000 SCAM RIPOFFS promoted through those hypey "Product Launches" designed to hypnotize you into giving some "Guru" your hard earned money.

And at the end of the day all I had was debt up to my eyeballs, maxed out credit cards, a savings account that was as dry as the Sahara and this massive feeling of

SHAME...

SHAME that I'd been tricked.

SHAME that I'd let my wife down

SHAME that I was going to become a BURDEN on my kids... that my kids who I'd busted my ass for all those years to raise up... who had problems of their own were going to have to support their old man because I couldn't do this on my own

And you know what? I never sold another copy of that ebook again.

Heck, I got so angry that night when I figured out the huge mistake I made that I deleted all those stupid "trainings" off my laptop... I CANCELED my "Mentorship" with that punk guru that was costing me almost as much as my mortgage...

And I went for a walk and for the first time since I'd fallen under the "Guru spell" I really THOUGHT about this money thing...

**I really THOUGHT about how the really SMART people (not the scammers online) were ACTUALLY making REAL money without ripping people off...**

And I stumbled onto a simple (almost stupid) idea that would change EVERYTHING...

An idea I KICK myself for not figuring out YEARS earlier...

And an idea that's going to change your life forever (Assuming you have the guts to take action today).

A couple nights after my "breakdown" I got a call from an old friend of mine...

---

[Click here to learn how you could make \\$300 per day by simply copying and pasting a tiny string of code...](#)

One of my oldest friends from when I was a kid, but we hadn't really kept in touch the last few years.

He called me up and asked me if I'd get a beer with him.

I said sure, and when he picked me up at my house I could barely recognize him.

When I'd known this guy, he was just some punk. Not the smartest guy I knew by far. Nobody thought he was ever going to make anything of himself. The kind of guy you thought was going to be a loser his whole life.

He pulled up in a limo, with a beautiful young woman as his chauffeur.

He had this huge watch on... this immaculate suit and this twinkle in his eye that just said he been able to really figure everything out.

He was just confident. Powerful. Happy.

He bought the first round.

And the fifth.

I told him all about what I'd been going through.

And he opened a door me that changed everything in my life.

## He Explained To Me That The Way To Get Rich Wasn't To Find Guru "Millionaires" And Do What They Say... It Was To Find BILLIONAIRES And Copy What They Do...

After my friend dropped me off my head was swimming (and not just from the booze.)

I started thinking about the most SUCCESSFUL COMPANIES IN THE WORLD...

The three companies that had gone from 0 to multiple BILLIONS of dollars faster than any other companies in history.

---

[Click here to learn how you could make \\$300 per day by simply copying and pasting a tiny string of code...](#)

They were ALL online.

And they ALL had ONE huge thing in common.

Think about it, what are the three most successful companies on the internet?

It's easy.

They're Facebook, Youtube and Google.

I mean, I'm a little older than you might be, but when I was growing up it took DECADES to amass a real fortune.

But Mark Zuckerberg became a BILLIONAIRE by the time he was 25 years old.

And what do these three multi BILLION dollar companies have in common?

I'll tell you what...

They don't create crappy "info products" or run seminars or "coaching groups" or any of that BS the gurus are telling you to do (and I'll tell you none of them are as successful as they pretend to be.)

What These Multi-Billion Dollar Companies Do Is Create VIRAL Websites Where Users Create All The CONTENT For Them...

I mean, think about it...

What does FACEBOOK actually do?

Facebook doesn't CREATE any of the photos or posts that are put there every day

YouTube doesn't CREATE any of the MILLIONS of movies they have on their site

Google doesn't CREATE any of the BILLIONS of websites that are found through them every day.

---

[Click here to learn how you could make \\$300 per day by simply copying and pasting a tiny string of code...](#)

Nope. All these "Big Three" companies do is create VIRAL websites that AUTOMATICALLY grow... that average people like you and me are DRAWN to like moths to a flame... where regular people all over the world do all the actual WORK... and where they can make BILLIONS just by taking the FREE traffic they attract like a MAGNET and turning it into COLD HARD MONEY.

But even though these companies don't really "DO" anything or "CREATE" anything they pull in MASSIVE amounts of cold hard cash each and every day...

That night I got to thinking that maybe the "Gurus" had been lying to me all these years.

Maybe creating products, learning PPC and all that other malarky WASN'T the way to really MAKE IT online.

Maybe there was a BETTER way...

It dawned on me that if I could take the "Big Idea" that Facebook, YouTube and Google are built on and apply it to the NICHES that internet marketers know better than anyone else, I could finally get out of this Info Product GAME forever...

Attract a FLOOD of valuable traffic that NOBODY ELSE has access to

And even have the GURUS coming to ME... begging me to promote their stuff... offering me affiliate commissions of 75%... 80%... 90% or more and make as much MONEY as I wanted without having to pay a DIME for traffic and without having to do a DAMN THING the gurus ever told me to do...

For the next couple weeks I spent every free hour I could studying how these "Viral Websites" like Facebook and Youtube really worked... trying to figure out the "Secret Code" that would let me create my OWN Viral Niche Websites that would bring me the traffic I'd wanted for so long.

---

[Click here to learn how you could make \\$300 per day by simply copying and pasting a tiny string of code...](#)

I mean, Facebook has over 500 MILLION members... and I knew even I could only tap into 1% of 1% of that with my niche site I'd be able to finally QUIT my job for good...have the money and the security I needed and finally be able to get my beautiful Emily to stop worrying and be the woman I fell in love with again...

If I was going to do this right, I knew I was going to have to get somebody to create an automated tool for me. A way to create these "Viral" websites at the push of a button.

## So I Made The Most Frightening Phone Call Of My Life...

It took a long time to find him, but I finally tracked down the secret programmer behind some of the biggest and most successful "Viral" and "Social" websites on the internet...

I can't tell you his name or the sites he worked on, but this is a guy who had been SCREWED out of literally MILLIONS of dollars by his ex business partners

And who understood the fundamental backbone of these billion dollar sites better than anyone else on the planet...

I told him what I needed... a push button way to create "mini" Viral Websites like Facebook and YouTube literally at the push of a button...

A tool even I could use (and I've never been technical and could never even figure out how to put up a basic HTML page without help.)

I said a little prayer as I sent him the Paypal payment... hoping more than anything that I hadn't made a huge mistake.

## And A Few Weeks Later I Got The Incredible "Viral Website Creating" Traffic Tool That Would Change My Life Forever...

I loaded the script on my crappy old laptop.

---

[Click here to learn how you could make \\$300 per day by simply copying and pasting a tiny string of code...](#)

I filled in the niche I wanted to create a site in and some basic information.

I hit "GO"...

And in less time than it takes to tell it something amazing happened...

## See, I'd instructed my programmer that I needed TWO things to make this really work...

1. I needed a "platform" that encouraged users to come back to my sites again and again... creating more and more content for me, becoming ADDICTED to my site (like so many people are addicted to Facebook) giving me more and more opportunities to profit...

2. I needed a VIRAL TRAFFIC SURGE where THOUSANDS or TENS OF THOUSANDS or even HUNDREDS OF THOUSANDS of users would all hit my site at the same time, creating accounts, creating content and giving me the momentum I needed to DOMINATE my niche...

Did It work?

LITERALLY OVERNIGHT people started posting THEIR content on MY site... and I used a simple affiliate technique to turn that FREE traffic into MONEY.

I couldn't believe it when the money started coming in.

Remember, up until that point the only money I'd ever made online was \$17.48 from one ebook I'd SLAVED over for month...

This wasn't PPC...

This wasn't CPA...

This wasn't affiliate traffic (where I'd need to give HUGE commissions and barely keep anything myself.)

This was 100% FREE traffic... traffic I didn't have to WORK for at all and where thousands of people all over the country were doing all the "Content creation" for me while I just sat back and relaxed.

---

[Click here to learn how you could make \\$300 per day by simply copying and pasting a tiny string of code...](#)

It took a few weeks before I felt like I could really tell Emily about what I'd discovered.

I was so scared that the "cash fire hose" I'd stumbled onto would be turned off... that this was all some dream I was having... that I was going to wake up and realize that none of it was real.

## But Eventually I Couldn't Hide The Money Any More...

I waited until I had an entire year's salary in the bank to show her. A whole year of breaking my back at a job I hated that I'd never need to do again.

I found Emily in the kitchen, worrying over bills like she always was.

I asked her to come downstairs with me.

I opened the laptop, logged into our bank account and showed her the money.

She didn't believe me at first.

But then, my wife of over 43 years looked at me with these soft, joyful tears in her eyes.

She melted against me and she kissed me like she did on our wedding day.

For that moment I felt young again. Young and in love and like I could do anything.

## The Next Few Months Were The Happiest I Ever Had...

I finally quit my job and Emily quit hers.

We spoiled our grandkids rotten.

I helped my son buy the home of his dreams (and turned him on to the simple methods I was using to generate this amazing income online.)

---

[Click here to learn how you could make \\$300 per day by simply copying and pasting a tiny string of code...](#)

I paid off all of my credit card debt (and got back all the money I'd wasted with scammy gurus.)

I was rich... I had more money in my bank account than I'd made in the last 10 years combined.

**But you know what? Ultimately this isn't about me,  
it's about you.**

It's about you not being a victim either.

It's about you learning RIGHT NOW what I learned far too late in my life: How to create the wealth you deserve without some "guru" telling you what to do... without some "boss" holding you back... without relying on some "company" to take care of you, because they won't...

It's about you getting the freedom and power and control over your life that only comes from having your very own endless stream of easy income.

Just to boil this down...

Plain and simple, if you do what I say...

**You Can Blatantly Steal Facebook and Youtube's  
Business Model... Automatically Create Viral Sites  
Where People Around The World Do All The "Work"  
For You....**

And you won't even need...

- ANY Experience or
- ANY technical skills

In order to cash in with this astonishing affiliate technology which I call...

---

[Click here to learn how you could make \\$300 per day by simply copying and pasting a tiny string of code...](#)

The Click Viral Machine (Because that's exactly what this super-affiliate technology is... A MACHINE that drags an endless flood of FREE viral traffic to your sites FOR YOU without you ever having to write an article, create content, create ads or do any actual "work" at all.

In fact, all YOU have to do is turn the technology on, redirect your FLOOD of FREE traffic to whatever affiliate offer you want and cash the huge checks that will be yours each and every month as you create your very own Viral Traffic Empire.

How easy is Click Traffic Machine to use?

Well, let me just say...

If You've Ever Logged In To Facebook or Done A Web Search On Google, Then You Already Know Everything You Need To Know To Attract An Endless Flood Of Free Viral Traffic And Stuff Your Bank Account Full Of Cold Hard Cash

And you can grab and make MONEY on this traffic even if you have...

- No Experience.
- No Money.
- No Product.
- No JV Partners.
- No Tech Skills.
- No CLUE About How To Make Real Money Online And No Idea How You're Going To Get The Cash You Need For You And Your Family.

Heck, You Don't Even Need Your Own Computer To Cash In On This...

If you've got a way to get online for as little as 30 minutes (even if you have to go to the library to do it or activate the technology by logging in on your cell phone) you can simply start up the Click Traffic Machine software, create your Viral Traffic Attracting site and watch in amazement as the money starts rolling in on autopilot.

Listen...

**I can tell you right now that Click Traffic Machine is going to change your life forever.**

---

[Click here to learn how you could make \\$300 per day by simply copying and pasting a tiny string of code...](#)

All the "little things" you used to worry about, like paying your mortgage, having enough money to take your family out for a nice dinner or paying off the credit card debt that's been choking you for so long...

It might seem frightening at first, but you're going to need to let go of the idea of "struggling" for money and "not being good enough" and get ready to deal with what it's like to be a truly RICH person.

I know for me it was a real shock to get used to flying first class everywhere.

Or letting someone else carry my bags for me.

Or learning to live without an alarm clock...

Just getting up whenever you feel like it...

And going over to the computer to find out you've made more while you were sleeping than some people make in a whole month.

But much more importantly than that, you're finally going to have the chance to wake up to what really matters in life.

You're going to finally have the time to really connect to the people you care about.

To really LIVE your life and enjoy yourself instead of just keeping your head down and trying desperately to survive.

To have no regrets at all about how you spend your days.

And here's the the most wonderful part...

**Just Login To The Click Traffic Machine Software,  
Fill Out A Few Simple Forms And You Could Be Up  
And Running And Making Real Money As Soon As  
TONIGHT**

---

[Click here to learn how you could make \\$300 per day by simply copying and pasting a tiny string of code...](#)

No hours and hours of "training" to go through. No endless webinars or videos (that don't really teach you anything.) No complicated jargon, no "manipulation," no bull.

All you have to do is login to the software (it takes just a second), fill out a few forms and hit the "Go" button...

And suddenly you'll be playing the same game Facebook and Google and Youtube play...

You'll have thousands of other people around the world eagerly doing all the "work" in your online business for you (without asking for one single dime in return... in fact, they'd be offended if you offered to pay them)

And suddenly you'll be FREE to spend your time (and your money) relaxing and doing what you REALLY want to do.

Do me a favor.

After you run the software for the first time, get up from your chair and go do something fun.

Go for a walk.

Or go out back and play catch with your kids.

Or go make love with the man or woman you care about more than anyone else.

Really relax.

And enjoy yourself.

Let all that worry go.

Just give yourself permission to enjoy yourself for a few short hours.

---

[Click here to learn how you could make \\$300 per day by simply copying and pasting a tiny string of code...](#)

And then come back and see what happened.

See how much MONEY you can make simply by opening the door for your customers and without really having to DO anything at all...

Even when starting from nothing... starting with \$0.00... or starting deeply in debt.

And then answer this question for me...

## What's It Worth To You To Have A Lifetime Of Absolute Power, Control and Freedom Ahead Of You?

To be able to do whatever you want, whenever you want. To give your kids all the opportunities you've always dreamed of.

To be 100% immune to layoffs and stock market fluctuations and "the bad economy" and everything else that keeps you up at night?

To be able to buy your way out of situations everybody else just has to suffer through?

What's It Worth To You To Be Able To Make \$30,000 Or More Each And Every Month Without Really Having To Do Anything At All?

Let me ask you question:

How long have you been dreaming of finally getting this "money thing" handled in your life?

How fast did the last decade go without anything really changing?

I can tell you now, that the next years are going to go just as fast. Or faster.

And it's far too easy to end up as old as I am... but broke, alone and full of nothing but regret. Reliant on your kids or the government to keep you alive.

Worse yet, I think about my kids spending decades at a crappy job like I did because they don't know any better and it just pisses me off...

Which is why I'm retiring...

---

[Click here to learn how you could make \\$300 per day by simply copying and pasting a tiny string of code...](#)

Spending every moment I've got left making sure those kids know the truth about making money in this world...

I want to save you from the years of suffering I had to go through.

I want to get you out of this "information paralysis"...

So you can get the wealth you deserve NOW...

And not have to struggle and sacrifice for so long like I did.

If I can do that, then this report will have served it's purpose.

## Because Honestly, If You Can't Make At Least \$30,000 With The Help Of This Automated Software Platform, There's Probably Something Wrong With You

The possibilities are endless, and there's literally no one else out there who's figured this Viral Traffic loophole out...

(Certainly not the "gurus" who are still telling you to break your back writing articles, buying expensive traffic that never converts and doing everything you can to race your way to the bottom.)

I know flat out that unethical people are going to try to get their hands on this software and reverse engineer it...

That's why, in order to protect "the little guy" and give you as much time as possible to get out in front...

[Click here to learn how you could make \\$300 per day by simply copying and pasting a tiny string of code...](#)

# I'm Strictly Limiting Who Gets The Opportunity To Change Your Life Forever With This Astonishing New Software System

Time is short, so let's just cut to the chase:

I'm strictly limiting access to the Click Traffic Machine software to the next few people who are savvy enough to realize that 90% of being successful is taking action.

I have so little time left I can't waste my time with fools or people who aren't going to take action.

And this is the only way I can guarantee that the gurus and the scumbags and the parasites will be locked out.

That's the good news, the bad news is...

## I Flat Out Refuse To Let You Download The Butterfly Traffic Machine Software Unless You Promise Me Three Things...

1. You have to promise to USE IT... I'm 100% serious here. With so little time left in my own life and since I'm only letting a few people use this software, I need to be extremely selective about who I give it to.

If you're just a "tire kicker"... if you're just going to download this software and let it sit on your desktop the this is not for you.

My staff of programmers have made this software so simple that even a non-technical "old man" like me can use it.

So if you download Click Traffic Machine and don't use it? You don't have any excuse at all to hide behind.

---

[Click here to learn how you could make \\$300 per day by simply copying and pasting a tiny string of code...](#)

For every one "lazy" person who doesn't use this program, there are 50 more ACTION TAKERS who see the real value here and are ready to take action on a "sure thing" when they see it.

2. You have to PROMISE ME you won't use this software for unethical purposes (It's that effective and that powerful.)

3. You have to promise to use your newfound wealth and freedom to help other people like I'm helping you right now.

Now that that's out of the way, you're probably curious how much it's going to cost you to grab the Click Traffic Machine Software today.

And with the money you stand to make in your very first week using Butterfly Traffic Machine, I could easily offer you this software for THOUSANDS of dollars and still sell out very quickly...

**But You Know What? I'm Not Doing This Just To Make Folks Who Are ALREADY Rich Even Richer. I Want To Help The Little Guy Who's Just Getting Started And Who Desperately Needs Help... So Here's What I'm Going To Do...**

I had to personally pay top dollar to my programmer to create the Click Traffic Machine Software...

If I was some "big internet marketing guru," I'd package this software up with a bunch of useless "feel good" bonuses, do a big hypey "launch" and charge you \$1,997.00 for it...

And I know full well I could sell out 500 copies in a heartbeat at \$1,997.00 because there are enough people out there who recognize a golden goose when they see it...

But you know what?

I've already got all the money I'm ever going to need... and it just keeps coming in every day whether I pay attention or "work" or not.

---

[Click here to learn how you could make \\$300 per day by simply copying and pasting a tiny string of code...](#)

My medical bills are paid. Nobody in my family has any debt at all.

And my beautiful children are set to be taken care of for the rest of their lives.

Whether you pay thousands of dollars or nothing at all, I don't really care. It won't affect my life at all.

But I know EXACTLY what it's like to be desperate for cash... wondering how the heck you're going to make rent and feeling that horrible tightness in your chest because you don't know where the money is going to come from.

So you won't pay \$1,997.00 like the big "gurus" who just want to rip you off would ask.

My friends all tell me I should charge at least \$797 for this, just to make sure only serious people take me up on this.

But I know that in this economy even \$797 can seem like a LOT of money (even though it's going to seem like peanuts when you see what Butterfly Traffic Machine can do for you.)

So to make this as easy for you as possible, I'm going to drop the price to just \$97.

And in order to just get this whole thing over with so I can focus what little time I have on my grandchildren, I'm going to cut it again to just...

## **\$47 for the next people who click here now...**

Does \$47 sound like a steal to you?

Software that will change your life and let you finally get off the crappy job hamster wheel for less than the cost of dinner out?

Honestly, there's a part of me that thinks this is just TOO cheap... that I might have to raise the price just to make it sound more realistic.

In fact, don't be surprised if you leave this page and come back just to see I'm selling Butterfly Traffic Machine for a couple hundred dollars at least.

And don't write me an email complaining because you weren't fast enough to take action right now.

---

[Click here to learn how you could make \\$300 per day by simply copying and pasting a tiny string of code...](#)

I don't want to put too fine a point on this...

But in so many ways...

## You're Running Out Of Time

I remember how many times I ignored my gut and let a huge opportunity go because I was so busy being blinded and lied to by the gurus...

So busy creating products and writing sales copy and articles and breaking my back when I didn't really need to do any of that at all.

And I know if I had just buckled down and trusted my instincts earlier I could have achieved my dreams years earlier...

30 days from now there are going to be people who won this game and changed their lives forever.

And there are going to be people who lose out, who don't take action and who are still stuck in a lifestyle they hate.

Oh, and of course, just to make this a real "no brainer" for you...

## Here's Why Click Traffic Machine Is Technically FREE

Here's the deal:

Like I said before, I don't need (or even actually want) your money. The only reason I'm releasing my Click Traffic Machine Software is because I want to keep you from making the mistakes that I made.

I'm charging you \$47 today to motivate you to actually get off your butt and take action... discover the power of FREE VIRAL traffic like Facebook and Google have (and that turned them both into multi BILLION dollar companies) and get the lifestyle, the freedom and the wealth you deserve.

So here's all you have to do...

---

[Click here to learn how you could make \\$300 per day by simply copying and pasting a tiny string of code...](#)

Just say "maybe" to Viral Traffic Machine today.

Download the software and watch the videos we put together showing you EXACTLY what to do and EXACTLY how to make money with it.

Simply run the software and watch in amazement as you create your very own Viral-Traffic-Getting site in minutes... and start creating REAL wealth

Start grabbing your piece of the multi-billion dollar Viral Traffic that's available right now before the big "gurus" catch on.

Make as much money as you want with the software for TWO FULL MONTHS and if for ANY reason at all you decide this isn't for you, just let me know and I'll give you your \$47 back.

That's the deal.

No fine print. No BS. If I can't help you, I don't deserve your money.

That means you've got EIGHT FULL WEEKS to decide if this works for you or not and you risk absolutely nothing in the meantime.

OK, now that that's out of the way... I want you to stop and think about something for a second.

You've seen how powerful the Click Traffic Machine software is... how it allows you to create massive streams of affiliate income on total autopilot (and off 100% FREE traffic.)

And I think you know already, this isn't about MONEY.

It's about FREEDOM.

It's about you having absolute freedom to do whatever you want with the years you have left on this planet.

# Just Imagine How I Felt When I Cracked The Code And Saw \$4,000 - \$9,000 Flowing Into My Bank Account Each And Every Day.

It was wonderful. It was amazing to realize I'd finally accomplished what I'd wanted for so long.

To wake up every day to see six figures in my bank account, just sitting there.

To stop caring about the price of food or restaurants or gas.

I remember when I walked into the car dealership and paid CASH for the Mercedes I'd had my eye on for years and bought another one for Emily just because I could.

How the "Money worry" that I'd been carrying around for decades finally faded away.

To be able to buy my kids anything they wanted.

And to really relax.

I'm sure you can imagine how great that felt.

I try not to think about what I could have done with the last few DECADES if I'd simply run away from the gurus and discovered the secrets of automatic wealth earlier.

I wasted so much time.

I missed out on so much. I could have gotten this taken care of so long ago.

And that tiny group is going to become the "Giants" of the Viral Traffic space... laughing their way to the bank while everyone else bites and claws over a smaller and smaller pie of paid traffic.

Right Now You've Got Two Options...

Option one is to leave this report. Close this report and try to forget you ever saw it.

Go back to setting up spammy clickbank review sites.

Or writing endless and awful articles.

Or giving some "guru" THOUSANDS of dollars you don't have for an "info product" you'll simply never even open.

Go to work every day and try to ignore that sinking feeling in your gut that you let something amazing slip through your fingers.

Ignore that nausea in your stomach that tells you you made a huge mistake.

Let me ask you a question:

How's it going to feel a few months from now, when you start hearing of friends of yours who took me up on this offer... who grabbed this amazing software and put it into action... who changed their lives over night...

While you just sat there on your hands and did nothing... because you were scared of the success that's right there in front of you?

How's it going to feel to get old and bitter and poor?

To see your dreams just drift away?

To give up (like I almost gave up)?

Or to finally "get rich" too late at the end of your life... ?

You can wait and find out how awful that's going to feel.

Or you could go with option 2.

You can be one of the smart and the fast who understand that you have an amazing opportunity in front of you.

That you literally have a chance to stand on the shoulders of giants... to take all the work that Facebook and Google And Youtube have done and use it to create your very own automatic cash machine...

Where thousands of volunteers around the world do all the work for you...

Who THANK YOU for giving them the chance to create content for you . .

While you just sit back and cash the check...

I can't make the choice for you.

But I think you can feel in your gut what you should do right now.
